Intent To Sole Source

SOUTH CAROLINA DEPARTMENT OF HEALTH & ENVIRONMENTAL CONTROL

The South Carolina Department of Health & Environmental Control (DHEC) is seeking a qualified vendor to provide modules to expand the capabilities of Palmetto, which is the South Carolina Emergency Management Division's Common Operating Picture.

Requirements include but are not limited to: add a layer to input, store, retrieve and display specified information about health care facilities; select and display these facilities, based on the intersection of facility locations relative to other layers defined within Palmetto; and provide polygon-based search and export tools to select and list facilities located within user-defined polygons. The module must also conform to Palmetto's look-and-feel to maintain compatibility with user training and procedures; write, search and retrieve data from Palmetto without pre- or post-processing; and allow import from and export to Excel.

Qualified vendors should contact E. Madison Winslow at 803-898-3487 by June 20, 2017, for additional information.

SOUTH CAROLINA VOCATIONAL REHABILITATION DEPARTMENT

The South Carolina Vocational Rehabilitation Department (the "Department") is seeking a qualified architect to provide complete architectural/engineering services for the design and construction administration of the Holmesview Center located in Greenville, SC. The Holmesview Center is a drug and alcohol treatment center that fire destroyed in November 2016.

The Department is currently constructing a new drug and alcohol treatment center in Florence, SC. The design of the Florence center successfully meets the programmatic needs and requirements of the Department for drug and alcohol treatment centers and is ideal for the Holmesview Center. Additionally, site adapting this design will save time and money, and restore these vital services to our state as quickly as possible.

The Department is not aware of any other suitable design prepared to meet its special needs and requirements. Therefore, the Department intends to site-adapt the Florence center design for the Holmesview Center. The architect and architect's consultants for the Florence center own the license for this design. Therefore, the acquisition of the design is a sole source.

Due to liability issues, the Florence center architect is not willing to sell its license for use elsewhere absent their involvement in the project. The Department also believes that no other architect would accept the liability of using another architect's design without significant review and modification. For this reason, the Department believes that acquisition of the architect to site adapt the Florence center design is a sole source and intends to proceed as such.

Qualified architects who disagree that the selection of the architect to site adapt an existing design and who are willing to accept full responsibility for doing so, should contact Wes Stokes at 803-896-6839 by June 23, 2017, for additional information.
