Contract#: 4400013969-Lots 6 & 8
Vendor#: 7000073170

(Below are the respective counties of the seven SCDOT Engineering Districts)

District 1 - (Kershaw, Lee, Lexington, Richland, Sumter)

District 2 - (Anderson, Abbeville, Edgefield, Greenwood, Laurens, McCormick, Newberry, Saluda)

District 3 - (Greenville, Oconee, Pickens, Spartanburg)

District 4 - (Cherokee, Chester, Chesterfield, Fairfield, Lancaster, Union, York)

District 5 - (Darlington, Dillon, Florence, Georgetown, Horry, Marion, Marlboro, Williamsburg)

District 6 - (Beaufort, Berkeley, Charleston, Colleton, Dorchester, Jasper)

District 7 - (Aiken, Allendale, Bamberg, Barnwell, Calhoun, Clarendon, Hampton, Orangeburg)

This solicitation requires that all manufactures be pre-qualified by SCDOT to produce concrete culvert pipe before they can be eligible to bid. It does not require bidders to be pre-qualified producers of pipe in order to bid, but rather that all pipe delivered under the proposed contract be produced by a pre-qualified manufacturer. Therefore, any supplier can bid as long as the source of the pipe is from a pre-qualified manufacturer.

REQUESTS FOR QUALIFICATION

Producers should make a written request to be included on SCDOT QPL 69 to:

**Aly Hussein, Phd, PE
Structural Materials Engineer
S. C. Department of Transportation
Office of Material & Research
P.O. Box 191
Columbia, S.C. 29202
803-737-6687
husseinAA@scdot.org**

GUIDELINES FOR INITIAL QUALIFICATION

1. A plant certification from either the American Concrete Pipe Association (ACPA) or the National Pre-Cast Concrete Association (NCPA) for each plant proposed to provide RCP for SCDOT Projects.
2. A Hydrostatic Pressure Test Certification and copies of test results for each joint design for range of pipe sizes, conducted at the producer's facility.
3. A Quality Control Plan for the plant.
4. A professional engineer (licensed in South Carolina) certification and documentation that standard pipe listed on QPL 69 meets or exceeds the material and fabrication properties listed in AASHTO M 170 for Class III, IV, and V Pipe, and that all standard pipe produced for use within SCDOT right of way will be in conformance with B OR C wall with circular reinforcement only. Manufacturers may produce custom pipe, such as circular pipe with additional reinforcement (beyond AASHTO M 170 requirements), elliptical reinforcement, or stirrups as described in SC-M-714 provided proper marking and installation requirements are met. However, these pipes will not be listed on QPL 69 and should be specified on an as-need basis.

BIDDERS ARE REQUIRED TO MEET ALL TERMS AND CONDITIONS AS SHOWN IN THE QUALIFIED PRODUCTS LIST SOLICITATION

QUALIFIED MANUFACTURER/PRODUCT LIST CAN BE ASSESSED AT:

<http://www.scdot.org/doing/ConstructionDocs/pdfs/Materials/69%20QPP%20122409.pdf>

(If the above URL Link does not open, cut and paste to your web browser as file should then open for viewing).

QUALIFIED PRODUCT POLICY FOR REINFORCED CONCRETE PIPE (RCP)

http://info.scdot.org/Construction_D/QualifiedProductPolicies2/69%20QPP%20030614.pdf

(If the above URL Link does not open, cut and paste to your web browser as file should then open for viewing).

ONLY THE APPROVED MANUFACTURERS PRODUCT LINES SPECIFIED IN THE QUALIFIED MANUFACTURE/PRODUCT LIST FOR THIS SCOPE OF WORK ARE ACCEPTABLE FOR PRODUCT SALES UNDER THIS CONTRACT. OTHER MANUFACTURERS PRODUCTS MAY BE OFFERED FOR FUTURE BIDS PROVIDED INTERESTED BIDDER SUBMITS NECESSARY LITERATURE AND SAMPLES FOR EVALUATION. CONTACT ALY HUSSEIN PhD, PE, AT 803-737-6687 TO ARRANGE FOR SAMPLING.

GUIDELINES FOR CONTINUED QUALIFICATION

1. Up-to-date copies of ACPA or NCPA Certifications
2. Up-to-date copies of the Quality Control Plan

**BID SPECIFICATIONS AND INSTRUCTIONS FOR
REINFORCED CONCRETE CULVERT PIPE
February 2016**

1. An estimate of pipe usage by county for all SCDOT locations from January through December 2015 will be given to the manufacturers in this bid package. See Attachment A & B for valuable prior estimated usage information and totals.

NOTE: The totals shown in Attachments A & B are estimates only, as the State does not guarantee the accuracy of these totals as shown. The estimates provided do not reflect actual future orders.

2. Vendors receiving contract awards will be requested to offer assistance to SCDOT personnel concerning installation procedures.
3. Bids for pipe **must** meet the South Carolina Department of Transportation's Standard Specification for Highway Construction, 2007 Edition; Section 714. Section 714 refers to SC-M-714 Supplemental Technical Specification for Permanent Pipe Culverts (see Section [714](#))
4. The SC-M-714 Supplemental Technical specifications for Permanent Pipe Culverts are subject to frequent changes and the contractor must meet the SC-M-714 requirements that are in place at the time of contract award. After award, the Contractor is responsible for checking the SCDOT Website to ensure that pipe meets the most current requirements of SC-M-714.
5. Bid prices to be quoted per eight (8) foot concrete pipe sections as the standard for all concrete pipe purchases. Pricing for the following diameter sizes 15", 18", 24", 30", 36", 42", and 48" is to be listed on the bid schedule (see Section VIII). Pipe will be provided to all counties and districts as part of SCDOT and any other qualified governmental entity throughout the State of SC and delivered by highway transport trucks to job sites as directed.
6. The classification(s) of pipe ordered by SCDOT and other possible governmental entities will have pipe dimensions set at a minimum class of Class III. The classification of 18" RCP is to include both Class III and IV.
7. All pipes must be supplied with joint material as specified on Qualified Product List and SCDOT Standard Specifications.

Pipe is to be purchased in 8-foot lengths for all sizes for all counties.

DELIVERY/PERFORMANCE LOCATION -- PURCHASE ORDER (JAN 2006)

After award, all deliveries shall be made and all services provided to the location specified by the Using Governmental Unit in its purchase order. [03-3015-1]

DELIVERY DATE -- PURCHASE ORDER (MODIFIED)

All items, except 18" Class IV, shall be delivered between seven (7) to fifteen (15) days after contractor's receipt of the purchase order. 18" Class IV shall be delivered between fourteen (14) to thirty (30) days after contractor's receipt of the purchase order. Required delivery for all eight (8) foot pipe diameters, except 18" Class IV is a maximum of fifteen (15) days after receipt of the purchase order. If the using governmental unit request delivery sooner than the time specified, contractor may invoice the ordering entity any additional shipping charges approved by the ordering entity on the purchase order.

If any contractor cannot fulfill the seven (7) to thirty (30) days delivery requirement, a notice must be given within twenty-four (24) hours, either by telephone call (confirmed in writing) or facsimile, written notice or e-mail, to the agency or government entity placing the order. Upon receipt of said notice, the ordering entity may elect to cancel its purchase order, regardless of the contractors' production status, and source the supply elsewhere. The contractor is responsible for the difference in price between the contract price and the price procured elsewhere.

It is up to each location to be responsible for any supplier that does not deliver within the terms of the contract.

QUALITY -- NEW (JAN 2006)

All items must be new. [03-3060-1]

SHIPPING / RISK OF LOSS (MODIFIED)

F.O.B. Destination. Destination is the shipping dock of the Using Governmental Units' designated receiving site, or other location, as specified herein. (See Delivery clause).

Deliveries with a minimum forty-five thousand (45,000) lbs. load are to be shipped FOB Destination. Ordering entities may mix and match pipe sizes and adjust quantities to achieve the 45,000 lbs. threshold. All pipe that is delivered shall be offloaded by contractor at the designated loading area as shown on the agency or using governmental entity's purchase order. Title will not pass to the ordering agency/entity until the unloading process is completed.

Individual orders for less than 45,000 lbs. shall ship these orders prepaid, add the shipping charges to the invoice as a separate item and include in the invoice total for payment by the ordering agency/entity. SCDOT and all other ordering agencies/entities also have the option of making their own pickup and delivery from the vendor/contractor's lot, thus saving payment for the shipping charges.

The shipper must notify the consignee twenty-four (24) hours in advance when the shipment will be delivered. If the truck does not deliver the day specified or is more than four (4) hours late of the notified time of delivery, the consignee has the right to charge the delivering company \$300.00 for late delivery.
