INTENT TO SOLE SOURCE

THERMO SCIENTIFIC PICOSPIN NMR 45 SPECTROMETER

Horry Georgetown Technical College in-
 tends to sole source the procurement of a
 spectrometer system. The product being
 considered is the Thermo Scientific pico-
 Spin NMR 45 Spectrometer sold exclusively
 by Thermo Fisher Scientific.

This system is unique from any other spec-
 trometer. The picoSpin 45 NMR
 Spectrometer is designed for ease of use:
 liquid samples are simply injected into an
 internal capillary via front-panel fittings &
 only 20 microliters of sample fluid is needed
 to obtain a spectrum. By drastically lowering
 cost & size (it occupies a small fraction of
 the space of a conventional NMR spec-
 trometer), the picoSpin 45 instrument
 makes NMR spectroscopy accessible to a
 variety of laboratories. Simple to operate, it
 allows students & technicians with limited
 NMR experience to use the power of NMR
 spectroscopy to identify chemical com-
 pounds or elucidate their structure.

Horry Georgetown Technical College seeks
 any vendors who can provide a system
 which meets or exceeds the referenced
 requirements. Responses will be accepted
 until 2:00pm, on February 25, 2014. Please
 submit all inquiries & responses to Dianna
 Cecala at dianna.cecala@hgtc.edu.

This notice of intent, any amendments & the
 award will be posted at
<http://www.hgtc.edu/Purchasing>.
