process to plan, design, & deliver
its projects. Part One involves
planning, community input, &
Conceptual Design. Part Two
involves production work to fully
document the design for purposes
of bidding & constructing the
project.

The Part One planning & conceptual
design phase has been completed &
has produced narratives, program
summaries, & various plans &
illustrations which define each
project in sufficient detail so that
the scope of the project is easily
understood, budgets & schedules
can be confirmed, approvals can
be granted with justification, &
ultimately, the Part Two production
of contract documents can advance
seamlessly.

This RFQ is for all services necessary
to complete Part Two (Production
Design Services) of this two-part
process, including completion of
design documents, bid phase,
construction administration, &
close-out. The District may choose
to select multiple firms to assign
projects as may be deemed in the
best interests of the District.

The District approved a revised
capital projects plan on July 28,
2014 including the following projects
for this solicitation:

**Capacity Relief - Additions &
Renovations:**
