SOLID WASTE DISPOSAL REPORT

Darlington County is requesting proposals (RFP) from professional licensed consultants to prepare a report which will allow the County and taxpayers to fully and effectively evaluate systems of solid waste disposal which will meet regulatory standards for the foreseeable future and which will provide taxpayers with reasonable, predictable and stable rates for the disposal of solid waste.

In addition to household trash, Darlington County currently operates a Construction and Demolition (C&D) Landfill. This contains debris from construction, demolition and remodeling including structural items such as lumber, concrete, shingles, wallboard, limbs, furniture, rugs/carpet and mattresses. Collectively, the county receives over 95,000 tons of debris annually.

The Darlington County Environmental Services Landfill handles and transports trash to a landfill that meets the U.S. Environmental Protection Agency’s Subtitle D regulations. The “Subtitle D” Landfill has four planned cells expected to last 20 years. Each cell is lined with a HDPE plastic liner and equipped with a leachate collection system to ensure there is no leakage to the environment. Darlington County currently has 13 recycling stations.

SC DEPT. OF TRANSPORTATION QUALIFIED PRODUCTS LISTS & POLICIES

The South Carolina Department of Transportation (SCDOT) maintains Qualified Products Lists (QPL) for a variety of pre-qualified materials that may be used on construction & maintenance projects as specified in the project proposal. If a QPL is referenced, only the pre-qualified products may be used.

The Qualified Products Policies (QPP) provide information to the manufacturer of the material to assist them in obtaining pre-qualified status. Each QPL & QPP indicates when the last revision occurred & a contact name in the event assistance is required.

For information about the QPL lists & the policy & procedures governing the testing & approval of those products, please visit the Materials & Research page at http://www.scdot.org/doing/rm_lab.asp. This site allows access to the contents of the various lists & also access to the published policy by selecting the date listed under the Policy or the List categories.
