Part IV

Facilities and Capital Expenditure Revisions

SECTION 4. Section 2-47-50 of the 1976 Code, as last amended
by Act 143 of 2005, is further amended to read:

“Section 2-47-50. The board shall establish formally each
permanent improvement project before actions of any sort which
implement the project in any way may be undertaken and no
expenditure of any funds for any services or for any other project purpose contracted for, delivered, or otherwise provided prior to the date of the formal action of the board to establish the project shall be approved. State agencies and institutions may advertise and interview for project architectural and engineering services for a pending project so long as the architectural and engineering contract is not awarded until after a state project number is assigned. After the committee has reviewed the form to be used to request the establishment of permanent improvement projects and has reviewed the time schedule for considering such requests as proposed by the board, requests to establish permanent improvement projects shall be made in such form and at such times as the board may require.

Any proposal to finance all or any part of any project using any funds not previously authorized specifically for the project by the General Assembly or using any funds not previously approved for the project by the board and reviewed by the committee shall be referred to the committee for review prior to approval by the board.

Any proposed revision of the scope or of the budget of an established permanent improvement project deemed by the board to be substantial shall be referred to the committee for its review prior to any final action by the board. In making their determinations regarding changes in project scope, the board and the committee shall utilize the permanent improvement project proposal and justification statements, together with any supporting documentation, considered at the time the project was authorized or established originally. Any proposal to increase the budget of a previously approved project using any funds not previously approved for the project by the board and reviewed by the committee shall in all cases be deemed to be a substantial revision of a project budget which shall be referred to the committee for review. The committee shall be advised promptly of all actions taken by the board which approve revisions in the scope of or the budget of any previously established permanent improvement project not deemed substantial by the board.

For purposes of this chapter, with regard to all institutions of higher learning, permanent improvement project is defined as:

(1) acquisition of land, regardless of cost, with staff level review of the committee and the Budget and Control Board, Capital Budget Office, up to two hundred fifty thousand dollars;

(2) acquisition, as opposed to the construction, of buildings or other structures, regardless of cost, with staff level review of the
committee and the Budget and Control Board, Capital Budget
Office, up to two hundred fifty thousand dollars;
(3) construction of additional facilities and work on existing
facilities for any given project including their renovation, repair,
maintenance, alteration, or demolition in those instances in which
the total cost of all work involved is \textit{five hundred thousand one
million dollars} or more;
(4) architectural and engineering and other types of planning
and design work, regardless of cost, which is intended to result in a
permanent improvement project. Master plans and feasibility
studies are not permanent improvement projects and are not to be
included;
(5) capital lease purchase of a facility acquisition or
construction in which the total cost is one million dollars or more;
and
(6) equipment that either becomes a permanent fixture of a
facility or does not become permanent but is included in the
construction contract shall be included as a part of a project in
which the total cost is one million dollars or more; and
(7) new construction of a facility that exceeds a total cost of
five hundred thousand dollars.
Any permanent improvement project that meets the above
definition must become a project, regardless of the source of funds.
However, an institution of higher learning that has been authorized
or appropriated capital improvement bond funds, capital reserve
fund or state appropriated funds, or state infrastructure bond funds
by the General Assembly for capital improvements shall process a
permanent improvement project, regardless of the amount.
For purposes of establishing permanent improvement projects,
Clemson University Public Service Activities (Clemson-PSA) and
South Carolina State University Public Service Activities (SC
State-PSA) are subject to the provisions of this chapter.”

Part V

Procurement Code Revisions

SECTION 5. Section 11-35-1210 of the 1976 Code is amended
by adding an appropriately numbered subsection at the end to read:
“( ) Subject to subsection (1), the State Board for Technical and
Comprehensive Education, in coordination with the appropriate
Chief Procurement Officer, may approve a cumulative total of up
to fifty thousand dollars in additional procurement authority for
technical colleges, provided that the designated board office makes
no material audit findings concerning procurement. As provided
by regulation, any authority granted pursuant to this paragraph is
effective when certified in writing by the designated board office.”

SECTION 6. Section 11-35-1550 of the 1976 Code is amended to
read:

“Section 11-35-1550. (1) Authority. The following small
purchase procedures may be utilized only in conducting
procurements for governmental bodies that are up to fifty thousand
dollars in actual or potential value. A governmental body may
conduct its own procurement up to fifty thousand dollars in actual
or potential value, and a governmental body that has received
procurement certification pursuant to Section 11-35-1210 to handle
the type and estimated value of the procurement may conduct the
procurement under its own authority in accordance with this code.
Procurement requirements must not be artificially divided by
governmental bodies so as to constitute a small purchase pursuant
to this section.

(2) Competition and Price Reasonableness.

(a) Purchases not in excess of two thousand five hundred
dollars. Except as provided in subitem (d) below, small purchases
not exceeding two thousand five hundred dollars may be
accomplished without securing competitive quotations if the prices
are considered reasonable. The purchasing office must annotate
the purchase requisition: ‘Price is fair and reasonable’ and sign.
The purchases must be distributed equitably among qualified
suppliers. When practical, a quotation must be solicited from other
than the previous supplier before placing a repeat order. The
administrative cost of verifying the reasonableness of the price of
purchase ‘not in excess of’ may more than offset potential savings
in detecting instances of overpricing. Action to verify the
reasonableness of the price need be taken only when the
procurement officer of the governmental body suspects that the
price may not be reasonable, comparison to previous price paid, or
personal knowledge of the item involved.

(b) Purchases over two thousand five hundred dollars to ten
thousand dollars. Except as provided in subitem (d) below, solicitation of written quotes from a minimum of three qualified
sources of supply must be made and documentation of the quotes
attached to the purchase requisition for a small purchase over two
thousand five hundred dollars but not in excess of ten thousand
dollars. The award must be made to the lowest responsive and
responsible sources.

c) Purchases over ten thousand dollars up to fifty thousand
dollars. Written solicitation of written quotes, bids, or proposals
must be made for a small purchase over ten thousand dollars but
not in excess of fifty thousand dollars. The procurement must be
advertised at least once in the South Carolina Business
Opportunities publication or through a means of central electronic
advertising as approved by the designated board office. A copy of
the written solicitation and written quotes must be attached to the
purchase requisition. The award must be made to the lowest
responsive and responsible source or, when a request for proposal
process is used, the highest ranking offeror.

d) For public institutions of higher learning in this State
excluding technical colleges, small purchase amounts to which the
provisions of subitem (a) apply are those purchases not exceeding
ten thousand dollars, and for these purchases subitem (b) above
does not apply. In addition, purchasing cards of the institution for
these purchases also may be used by officials or employees of the
institution as the governing board approves.

(3) All competitive procurements above ten thousand dollars
must be advertised at least once in the South Carolina Business
Opportunities publication or through a means of central electronic
advertising as approved by the designated board office.
Governmental bodies may charge vendors the cost incurred for
copying and mailing bid or proposal documents requested in
response to a procurement.

(4) The Division of Aeronautics of the Department of
Commerce may act as its own purchasing agency for all
procurements of maintenance services for aircraft and these
procurements may be conducted pursuant to Section 11-35-1550
subsection (2)(b).

(5) For a technical college authorized by the State Board for
Technical and Comprehensive Education, small purchase amounts
to which the provisions of subsection (2)(a) apply are those
purchases up to an amount not to exceed ten thousand dollars. If
authority is approved, a technical college may use purchasing
cards for these purchases up to the amount approved by the State
Board for Technical and Comprehensive Education.

SECTION 7. Section 11-35-3310 of the 1976 Code is amended to
read:

[172]  10
“Section 11-35-3310. (1) General Applicability. Indefinite delivery contracts may be awarded on an as-needed basis for construction services pursuant to the procedures in Section 11-35-3015(2)(b) and for architectural-engineering and land surveying services pursuant to Section 11-35-3220.

(a) Construction Services. When construction services contracts are awarded, each contract shall be limited to a total expenditure of seven hundred fifty thousand dollars for a two-year period with individual project expenditures not to exceed one hundred fifty thousand dollars; however, for public institutions of higher learning, and for technical college service contracts authorized by the State Board for Technical and Comprehensive Education, these limits shall be one million dollars for total expenditures and two hundred fifty thousand dollars for individual expenditures within the time periods specified.

(b) Architectural-Engineering and Land-Surveying Services. When architectural-engineering and land-surveying services contracts are awarded, each contract shall be limited to a total expenditure of three hundred thousand dollars for a two-year period with individual project expenditures not to exceed one hundred thousand dollars; however, for public institutions of higher learning, and for technical college service contracts authorized by the State Board for Technical and Comprehensive Education, these limits shall be five hundred thousand dollars for total expenditures and two hundred thousand dollars for individual expenditures within the time periods specified.

(2) Small Indefinite Delivery Contracts. Small indefinite delivery contracts for architectural-engineering and land-surveying services may be procured as provided in Section 11-35-3230. A contract established under this section shall be subject to Section 11-35-3230, and any regulations promulgated thereunder except that for public institutions of higher learning, and for technical college delivery contracts authorized by the State Board for Technical and Comprehensive Education, the individual and total contract limits shall be fifty thousand and one hundred fifty thousand dollars, respectively.”

SECTION 8. Section 11-35-4810 of the 1976 Code is amended to read:

“Section 11-35-4810. Any public procurement unit may participate in, sponsor, conduct, or administer a cooperative
purchasing agreement for the procurement of any supplies, services, or construction with one or more public procurement units or external procurement activities in accordance with an agreement entered into between the participants. Such cooperative purchasing may include, but is not limited to, joint or multi-party contracts between public procurement units and open-ended state public procurement unit contracts which shall be made available to local public procurement units, except as provided in Section 11-35-4820 or except as may otherwise be limited by the board through regulations.

However, thirty days’ notice of a proposed multi-state solicitation shall must be provided through central advertising and such contracts may be only awarded to manufacturers who will be distributing the products to South Carolina governmental bodies through South Carolina vendors; provided, however, that the provisions of this paragraph do not apply to public institutions of higher learning if the institution demonstrates a cost savings to the Office of State Procurement in regard to the multistate solicitation and procurement.”
