Whereas, the General Assembly finds that it adopted a modified version of the 1979 ABA Model Procurement Code for State and Local Governments, when it enacted 1981 Act No. 148. Since then, the ABA has revised its recommended model by adopting the 2000 ABA Model Procurement Code for State and Local Governments, a primary goal of which was to encourage the competitive use of new forms of project delivery in public construction procurement. With the enactment of Act 174 in 2008, the General Assembly adopted a modified version of the changes made by the 2000 ABA Model Code. In recognition of the State’s long history of reliance on the model code, the applicable official comments to the model code, and the relevant and applicable construction given to the model code, should be examined as persuasive authority for interpreting and construing the South Carolina Consolidated Procurement Code; and

Whereas, it is the intent of the General Assembly that agencies and institutions comply with Section 11-35-1530, which limits use of this source selection method to circumstances in which the use of competitive sealed bidding is either not practicable or not advantageous to the State; accordingly, the basis for such determinations must be specified with particularity and must be documented in sufficient detail to satisfy the requirements of audit.

The Materials Management Officer is responsible for controlling the use of RFPs by the respective offices of the Division of Procurement
Services and for monitoring the adequacy of such determinations statewide; and

Whereas, the General Assembly finds that thorough and considered acquisition planning, including appropriate market research, industry-government communications, requirements definitions, risk analysis, and contract administration plans, is necessary to provide increased economy in state procurement activities, to maximize to the fullest extent practicable the purchasing values of funds, and to foster effective broad-based competition for public procurement, all of which are key purposes of the procurement laws; accordingly, the head of each using agency, as defined in Section 11-35-310, is expected to have in place an effective system to implement such planning, and the State Fiscal Accountability Authority is expected to promulgate regulations, establishing guidelines for and requiring such planning, and to audit for compliance with such regulations; and

Whereas, the General Assembly finds that acquisition policies that more closely resemble those of the commercial marketplace, encourage the acquisition of commercial items, and, where possible, allow use of terms and conditions accepted in the marketplace, will promote efficiency and economy in contracting and avoid unnecessary burdens for agencies and contractors. Accordingly, it adopts simplified procedures for the acquisition of commercially available off-the-shelf products, including higher dollar thresholds for agency purchases of those products. Now, therefore,

Be it enacted by the General Assembly of the State of South Carolina:

SECTION 1. Section 11-35-20 of the 1976 Code is amended to read:

“Section 11-35-20. (1) This code must be construed and applied to promote underlying purposes and policies.  
(2) The underlying purposes and policies of this code are:  
(a) to provide increased economy in state procurement activities and to maximize to the fullest extent practicable the purchasing values of funds while ensuring that procurements are the most advantageous to the State and in compliance with the provisions of the Ethics Government Accountability and Campaign Reform Act;
(b) to foster effective broad-based competition for public procurement within the free enterprise system;
(c) to develop procurement capability responsive to appropriate user needs;
(d) to consolidate, clarify, and modernize the law governing procurement in this State and permit the continued development of explicit and thoroughly considered procurement policies and practices;
(e) to require the adoption of competitive procurement laws and practices by units of state and local governments;
(f) to ensure the fair and equitable treatment of all persons who deal with the procurement system which will promote increased public confidence in the procedures followed in public procurement;
(g) to provide safeguards for the maintenance of a procurement system of quality and integrity with clearly defined rules for ethical behavior on the part of all persons engaged in the public procurement process; and
(h) to develop an efficient and effective means of delegating roles and responsibilities to the various government procurement officers."

SECTION 2. Article 1, Chapter 35, Title 11 of the 1976 Code is amended by adding:

“Section 11-35-27. No part of this chapter may be considered to be impliedly repealed by subsequent legislative enactment if such construction of the subsequent legislative enactment can be reasonably avoided.”

SECTION 3. Section 11-35-40(2) and (3) of the 1976 Code is amended to read:

“(2) Application to State Procurement. This code applies to every procurement or expenditure of funds by this State under contract acting through a governmental body as herein defined irrespective of the source of the funds, including federal assistance monies, except as specified in Section 11-35-40(3) (Compliance with Federal Requirements) and except that this code does not apply to gifts, to the issuance of grants, or to contracts between public procurement units, except as provided in Article 19 (Intergovernmental Relations). Notwithstanding the foregoing, the provisions of Article 23 (Statewide Provisions) apply as provided
therein. It also shall apply to the disposal of state supplies as provided in Article 15 (Supply Management). No state agency or subdivision thereof may sell, lease, or otherwise alienate or obligate telecommunications and information technology infrastructure of the State by temporary proviso and unless provided for in the general laws of the State.

(3) Compliance with Federal Requirements. Where a procurement involves the expenditure of federal assistance, grant, or contract funds, the governmental body also shall comply with federal laws (including authorized regulations) as are mandatorily applicable and which are not presently reflected in this code; however, failure to comply with the foregoing is not subject to review under Article 17. Notwithstanding, where federal assistance, grant, or contract funds are used in a procurement by a governmental body as defined in Section 11-35-310(18), this code, including any requirements that are more restrictive than federal requirements, must be followed, except to the extent such action would render the governmental body ineligible to receive federal funds whose receipt is conditioned on compliance with mandatorily applicable federal law. In those circumstances, the solicitation must identify and explain the impact of such federal laws on the procurement process, including any required deviation from this code."

SECTION 4. Section 11-35-70 of the 1976 Code is amended to read:

"Section 11-35-70. Irrespective of the source of funds, any school district whose budget of total expenditures, including debt service, exceeds seventy-five million dollars annually is subject to the provisions of Chapter 35, Title 11, and shall notify the Director of the Office of General Division of Procurement Services of the State Fiscal Accountability Authority of its expenditures within ninety days after the close of its fiscal year. However, if a district has its own procurement code which is, in the written opinion of the Office of General Division of Procurement Services of the State Fiscal Accountability Authority, substantially similar to the provisions of the South Carolina Consolidated Procurement Code, the district is exempt from the provisions of the South Carolina Consolidated Procurement Code except for a procurement audit which must be performed every three years by an audit firm approved by the Office of General Division of Procurement Services. Costs associated with the internal review and audits are the responsibility of the school district and will be paid to the entity performing the audit."
SECTION 5. Section 11-35-210 of the 1976 Code is amended to read:

“Section 11-35-210. (A) Written determinations expressly required by the code or regulations must be retained in an official contract file of the governmental body administering the contract. These determinations must be documented in sufficient detail to satisfy the requirements of audit as provided in Section 11-35-1230.

(B) All findings, determinations, decisions, policies, and procedures allowed by this Chapter are exempt from the requirements of Section 1-23-140(b).”

most advantageous to least advantageous to the State, considering
only the evaluation factors stated in the request for proposals. If
price is an initial evaluation factor, award must be made in
accordance with Section 11-35-1530(9) below.

(8) Negotiations. Whether price was an evaluation factor or not,
After proposals have been ranked pursuant to Section
11-35-1530(7), the procurement officer, in his sole discretion and
not subject to review under Article 17, may proceed in any of the
manner indicated below, except that in no case may confidential
information derived from proposals and negotiations submitted by
competing offerors be disclosed:

(a) negotiate with the highest ranking offeror on price, on
matters affecting the scope of the contract, so long as the changes
are within the general scope of the request for proposals, or on both.
If a satisfactory contract cannot be negotiated with the highest
ranking offeror, negotiations may be conducted, in the sole
discretion of the procurement officer, with the second, and then the
third, and so on, ranked offerors to the level of ranking determined
by the procurement officer in his sole discretion;

(b) during the negotiation process as outlined in item (a)
above, if the procurement officer is unsuccessful in his first round
of negotiations, he may reopen negotiations with any offeror with
whom he previously negotiated; or

(c) before or after negotiations pursuant to Section
11-35-1530(8), the procurement officer may make changes to the
request for proposals within the general scope of the request for
proposals and may provide all responsive offerors an opportunity to
submit their best and final offers, which must be reevaluated and
ranked pursuant to Section 11-35-1530(7).

(9) Award. Award must be made to the responsible offeror
whose proposal is determined in writing to be the most
advantageous to the State, taking into consideration price and the
evaluation factors set forth in the request for proposals, unless the
procurement officer determines to utilize one of the options provided in Section 11-35-1530(8). The award of the contract must be made on the basis of evaluation factors that must be stated in the RFP. The contract file must contain the basis on which the award is made and must be sufficient to satisfy external audit. Procedures and requirements for the notification of intent to award the contract must be the same as those provided in Section 11-35-1520(10).”

SECTION 23. Subarticle 3, Article 5, Chapter 35, Title 11 of the 1976 Code is amended by adding:

“Section 11-35-1535. (A) Conditions for Use.
(1) Competitive negotiations are most appropriate for complex, major acquisitions.
(2) If the procurement officer determines in writing that the use of competitive negotiations is appropriate and in the using agency’s interest, a contract may be entered into by competitive negotiations subject to the provisions of Section 11-35-1520 and the ensuing regulations, unless otherwise provided in this section. This section may not be used to acquire only commercially available off-the-shelf products.
(3) Competitive negotiated acquisitions may be conducted only by the office of the appropriate chief procurement officer.

(B) Definitions. As used in this section:
(1) ‘Clarification’ means any communication in which the procurement officer requests or accepts information that clarifies any information in a proposal. Clarification does not include the request or acceptance of any change to the terms of a contractual offer.
(2) ‘Competitive range’ means the offeror or group of offerors selected for negotiation.
(3) ‘Negotiations’ means any communication that invites or permits an offeror to change the terms of its contractual offer in any way.

(C) Request for qualifications. Offerors may be prequalified as provided in Section 11-35-1530(4).

(D) Requests for proposals.
(1)(a) Solicitations for competitive negotiations must be requests for proposals and must, at a minimum, describe:
(i) the State’s requirements;
(ii) anticipated terms and conditions that will apply to the contract. The solicitation may authorize offerors to propose
alternative terms and conditions, including alternative contract line
items;
(iii) information required to be in the offerors proposal;
and
(iv) evaluation factors.
(b) The request for proposals must state the relative
importance of all factors to be considered in evaluating proposals
but need not state a numerical weighting for each factor. Except as
provided by regulation, past performance and price must be
evaluated. If price is an evaluation factor, the solicitation must state
whether all evaluation factors other than price, when combined, are
significantly more important than, approximately equal to, or
significantly less important than price.
(2) Amendments. Amendments issued after the established
time and date for receipt of proposals may not exceed the general
scope of the request for proposals and must be issued to those
offerors that have not been eliminated from the competition.
(E) Public Notice. Adequate public notice of the request for
proposals must be given in the same manner as provided in Section
11-35-1520(3).
(F) Receipt of Proposals. Proposals must be opened in
accordance with regulations of the board. A tabulation of proposals
must be prepared in accordance with regulations promulgated by the
board and must be open for public inspection after contract award.
(G) Evaluation. Proposal evaluation is an assessment of the
proposal and the offeror’s ability to perform the prospective contract
successfully. All proposals must be evaluated and, after evaluation,
their relative qualities must be assessed solely on the factors and
subfactors specified in the solicitation. The relative strengths,
deficiencies, significant weaknesses, and risks supporting proposal
evaluation must be documented in the contract file.
(H) Competitive Range. After complying with subsection (G),
the procurement officer shall establish a competitive range
comprised of the offerors that submitted the most promising offers.
Ordinarily, the competitive range should not include more than three
offerors. The procurement officer may select only one offeror and
may select more than three. The procurement officer shall document
the rationale for the selections.
(I) Exchanges with Offerors.
(1) Fairness and impartiality. The procurement officer shall
treat all offerors fairly and impartially when deciding whether and
when to seek clarification or to negotiate. Similarly situated offerors
must be given similar opportunities to clarify and, if in the
competitive range, to negotiate.

(2) Clarifications. The procurement officer may conduct
clarifications at any time before the award decision.

(3) Negotiations.
(a) The procurement officer shall negotiate with each
offeror in the competitive range. The primary objective is to
maximize the State’s ability to obtain best value, based on the
requirements and the evaluation factors set forth in the solicitation.
Subject to item (1), the scope and extent of negotiations are a matter
of the procurement officer’s judgement.

(b)(i) At a minimum, the procurement officer shall identify
and seek the elimination of any term of a contractual offer that does
not conform to a material requirement of a solicitation and any other
undesirable terms in a contractual offer.
(ii) The procurement officer may negotiate with offerors
to seek changes in their contractual offers that the State desires and
to allow them to make other improvements.
(iii) Negotiations may include pricing.
(iv) The procurement officer may not relax or change any
material term of the solicitation during negotiation except by
amendment.
(v) In conducting negotiations, the procurement officer
may not disclose confidential information derived from proposals
submitted by competing offerors.
(c) The procurement officer shall document the using
agency’s prenegotiation objectives with regard to each offeror in the
competitive range and shall prepare a record of each negotiation
session.
(d) The procurement officer may eliminate an offeror from
the competitive range after negotiation if the offeror is no longer
consider to be among the most promising.

(4) The board must promulgate regulations governing
exchanges with offerors.

(J) Proposal Revisions. The procurement officer may request or
allow proposal revisions to clarify and document understandings
reached during negotiations. If an offeror’s proposal is eliminated
or otherwise removed from the competitive range, no further
revisions to that offeror’s proposal may be accepted or considered.

Upon the completion of negotiations, the contracting officer shall
request that offerors still in the competitive range submit final
proposals no later than a specified common cutoff date and time.

(K) Award.
Award must be based on a comparative assessment of final proposals from offerors within the competitive range against all source selection criteria in the solicitation. Award must be made to the responsible offeror whose final proposal meets the announced requirements in all material respects and is determined in writing to provide the best value to the State, taking into consideration the evaluation factors set forth in the request for proposals and, if price is an evaluation factor, any tradeoffs among price and non-price factors. As provided by regulation, the contract file must document the basis on which the award is made, and the documentation must explain and justify the rationale for any business judgments and tradeoffs made or relied on in the award determination, including benefits associated with additional costs. Section 11-35-1524 does not apply.

(2) Procedures and requirements for the notification of intent to award the contract must be the same as those provided in Section 11-35-1520(1)."

SECTION 24. Section 11-35-1540 of the 1976 Code is amended to read:

"Section 11-35-1540. When bids received pursuant to an invitation for bids under Section 11-35-1520 are considered unreasonable by the procuring agency, procurement officer, or are not independently reached in open competition, or the low bid exceeds available funds as certified by the appropriate fiscal officer, and it is determined in writing by the chief procurement officer, the head of a purchasing agency, or the designee of either officer above the level of procurement officer, that time or other circumstances will not permit the delay required to resolicit competitive sealed bids, a contract may be negotiated pursuant to this section, provided that:

(1) each responsible bidder who submitted a bid under the original solicitation is notified of the determination and is given reasonable opportunity to negotiate;

(2) the negotiated price is lower than the lowest rejected bid by any responsible and responsive bidder under the original solicitation;

(3) the negotiated price is the lowest negotiated price offered by any responsible and responsive offeror."

SECTION 25. Section 11-35-1550 of the 1976 Code is amended to read:

[530]
“Section 11-35-1550. (1) Authority. The following small purchase procedures may be utilized only in conducting procurements for governmental bodies that are up to fifty thousand dollars in actual or potential value. A governmental body may conduct its own procurement up to fifty thousand dollars in actual or potential value, and a governmental body that has received procurement certification pursuant to Section 11-35-1210 to handle the type and estimated value of the procurement may conduct the procurement under its own authority in accordance with this code the amounts specified herein, but not in excess of the authority granted pursuant to Section 11-35-1210. Procurement requirements must not be artificially divided by governmental bodies so as to constitute a small purchase pursuant to this section.

(2) Competition and Price Reasonableness.

(a) Purchases not in excess of two thousand five hundred dollars. Except as provided in item (d), No competition. Small purchases not exceeding ten thousand five hundred dollars may be accomplished without securing competitive quotations if the prices are considered reasonable. The purchasing office must annotate the purchase requisition: ‘Price is fair and reasonable’ and sign. The purchases must be distributed equitably among qualified suppliers. When practical, a quotation must be solicited from other than the previous supplier before placing a repeat order. The administrative cost of verifying the reasonableness of the price of purchase ‘not in excess of’ may more than offset potential savings in detecting instances of overpricing. Action to verify the reasonableness of the price need be taken only when the procurement officer of the governmental body suspects that the price may not be reasonable, comparison to previous price paid, or personal knowledge of the item involved.

(b) Purchases over two thousand five hundred dollars to ten thousand dollars. Except as provided in item (d), Three Written Quotes. Written request for solicitation of written quotes from a minimum of three qualified sources of supply may be made and, unless adequate public notice is provided in the South Carolina Business Opportunities, documentation of the quotes at least three bona fide, responsive, and responsible quotes must be attached to the purchase requisition for a small purchase over two thousand five hundred dollars but not in excess of ten twenty-five thousand dollars, or for a small purchase of commercially available off-the-shelf products not in excess of one hundred thousand dollars, or for a small purchase of construction not in excess of one hundred
thousand dollars. The award must be made to the lowest responsive
and responsible sources. The request for quotes must include a
purchase description. Requests must be distributed equitably among
qualified supplies unless advertised as provided above.

(c) Purchases over ten thousand dollars up to fifty thousand
dollars. Advertised Small Purchase. Written solicitation of written
quotes, bids, or proposals must be made for a small purchase,
other than a small purchase of construction, over ten thousand
dollars but not in excess of fifty one hundred thousand dollars. The
procurement must be advertised at least once in the South Carolina
Business Opportunities publication or through a means of central
electronic advertising as approved by the designated board office. A
copy of the written solicitation and written quotes must be attached
to the purchase requisition. The award must be made to the lowest
responsive and responsible source or, when a request for proposal
process is used, the highest ranking offeror.

(d) For public institutions of higher learning in this State
excluding technical colleges, small purchase amounts to which the
provisions of item (a) apply are those purchases not exceeding ten
thousand dollars, and for these purchases item (b) does not apply. In
addition, purchasing cards of the institution for these purchases also
may be used by officials or employees of the institution as the
governing board approves.

(3) Advertising Threshold. Except for procurements of either
commercially available off-the-shelf products or construction, if
conducted pursuant to item(2)(b), all competitive procurements
above ten twenty-five thousand dollars must be advertised at least
once in the South Carolina Business Opportunities publication or
through a means of central electronic advertising as approved by the
designated board office. Governmental bodies may charge vendors
the cost incurred for copying and mailing bid or proposal documents
requested in response to a procurement.

(4) The Division of Aeronautics of the Department of
Commerce may act as its own purchasing agency for all
procurements of maintenance services for aircraft and these
procurements may be conducted pursuant to subsection (2)(b).

(5) For a technical college authorized by the State Board for
Technical and Comprehensive Education, small purchase amounts
to which the provisions of subsection (2)(a) apply are those
purchases up to an amount not to exceed ten thousand dollars. If
authority is approved, a technical college may use purchasing cards
for these purchases up to the amount approved by the State Board
for Technical and Comprehensive Education.”
SECTION 26. Section 11-35-1560 of the 1976 Code is amended to read:

“Section 11-35-1560. (A) A contract may be awarded for a supply, service, information technology, or construction item without competition if, under regulations promulgated by the board, the chief procurement officer, the head of a purchasing agency, or a designee of either officer, above the level of the procurement officer, determines in writing that there is only one source for the required supply, service, information technology, or construction item. Except for contracts with a total potential value of fifty thousand dollars or less, adequate public notice of the intent to award without competition must be posted in South Carolina Business Opportunities, except that public notice is not required if the appropriate chief procurement officer, after consultation with the head of the purchasing agency, determines in writing that award without such notice is in the interest of the State. Notice must contain a statement of the right to protest under Section 11-35-4210(1) and must be posted at least five business days before entering a contract. For contracts with a total potential value greater than two hundred fifty thousand dollars, such notice must be posted at least ten business days before entering a contract.

(B) These regulations must include the requirements contained in this paragraph. Written documentation must include the determination and basis for the proposed sole source procurement. A delegation of authority by either the chief procurement officer or the head of a governmental body with respect to sole source determinations must be submitted in writing to the Materials Management Officer. In cases of reasonable doubt, competition must be solicited. Any decision by a governmental body that a procurement be restricted to one potential vendor must be accompanied by a thorough, detailed explanation as to why no other will be suitable or acceptable to meet the need.

(C) A violation of these regulations by a purchasing agency, upon recommendation of the designated board office Division of Procurement Services with approval of the majority of the State Fiscal Accountability Authority board, must result in the temporary suspension, not to exceed one year, of the violating governmental body’s ability to procure supplies, services, information technology, or construction items pursuant to this section.”
SECTION 27. Section 11-35-1570 of the 1976 Code is amended to read:

“Section 11-35-1570. (A) Notwithstanding any other provision of this code, the chief procurement officer, the head of a purchasing agency, or a designee of either officer may make award or authorize others to make emergency procurements contracts only when there exists an immediate threat to public health, welfare, critical economy and efficiency, or safety under emergency conditions as defined in regulations promulgated by the board; and provided, that such emergency procurements shall be made with as much competition as is practicable under the circumstances. A written determination of the basis for the emergency and for the selection of the particular contractor shall be included in the contract file.

(B) When a contract entered pursuant to subsection (A) has a total or potential value in excess of fifty thousand dollars, notice of the award must be posted in South Carolina Business Opportunities (SCBO) as soon as practicable thereafter. The posted notice must contain a statement of the right to protest under Section 11-35-4210(1).”

SECTION 28. Subarticle 5, Article 5, Chapter 35, Title 11 of the 1976 Code is amended by adding:

“Section 11-35-1610. A change order or a contract modification may not alter a contract in a manner or degree inconsistent with the underlying purposes and policies of this code or the regulations of the board.”

SECTION 29. Section 11-35-1810(3) of the 1976 Code is amended to read:

“(3) Right of Nondisclosure. Except as otherwise provided by law, information furnished by a bidder or offeror pursuant to this section shall not be disclosed outside of the offices of the board, the Office of the Attorney General, the using agency, or the purchasing agency without prior written consent by the bidder or offeror.

(4) Public procurement units, as defined in Section 11-35-4610, may provide information to one another relating to the responsibility or prior performance of a bidder or offeror, or provide any other information about a bidder or offeror that is otherwise related to procurement. Any person affiliated with a public procurement unit in an official capacity, who provides such information in good faith,
is immune from civil and criminal liability which might otherwise result by reason of his actions. In all such civil or criminal proceedings, good faith is a rebuttable presumption.”

SECTION 30. Section 11-35-1830 of the 1976 Code is amended to read:

“Section 11-35-1830. (1) Contractor Certification. A contractor shall, except as provided in subsection (3) of this section, submit cost or pricing data and shall certify that, to the best of his knowledge and belief, the cost or pricing data submitted is accurate, complete, and current as of mutually determined specified date prior to the date of:

(a) the pricing of any contract awarded by competitive sealed proposals pursuant to Section 11-35-1530, by competitive negotiations pursuant to Section 11-35-1535, or pursuant to the sole source procurement authority as provided in Section 11-35-1560 where the total contract price exceeds an amount established by the board in regulations; or

(b) the pricing of any change order or contract modification which exceeds an amount established by the board in regulations.

(2) Price Adjustment. Any contract, change order or contract modification under which a certificate is required shall contain a provision that the price to the State, including profit or fee, shall be adjusted to exclude any significant sums by which the State finds that such price was increased because the contractor furnished cost or pricing data was inaccurate, incomplete, or not current as of the date agreed upon between parties.

The governmental body’s invitation for bids must set forth all requirements of the bid including, but not limited to:

(i) The governmental body, in consultation with the architect-engineer assigned to the project, shall identify by specialty license classification or subclassification in the invitation for bids all subcontractors who are expected to perform work for the prime contractor to or about the construction when those subcontractors’ contracts are each expected to exceed three percent of the prime contractor’s total base bid. In addition, the governmental body, in consultation with the architect-engineer assigned to the project, may identify by specialty license classification or subclassification in the invitation for bids a subcontractor who is expected to perform work which is vital to the project. The determination of which subcontractors are included in the list provided in the invitation for bids is not protestable pursuant to Section 11-35-4210 or another provision of this code. A bidder in response to an invitation for bids shall set forth clearly identify in his bid the name of only those subcontractors to perform the work as identified in the invitation for bids. If the bidder determines to use his own employees to perform a portion of the work for which he would otherwise be required to list a subcontractor and if the bidder is qualified to perform that work under the terms of the invitation for bids, the bidder shall list himself in the appropriate place in his bid and not subcontract that work except with the approval of the governmental body for good cause shown.

(ii) Failure to complete the list provided in the invitation for bids renders the bidder’s bid unresponsive.

(iii) The governmental body shall send all responsive bidders a copy of the bid tabulation within ten working days following the bid opening.

(c) Instead of Section 11-35-1520(10), the following provisions apply:

(i) Unless there is a compelling reason to reject bids as prescribed by regulation of the board, notice of an intended award of a contract to the lowest responsive and responsible bidder whose bid meets the requirements set forth in the invitation for bids must be given by posting the notice at a location that is specified in the invitation for bids. The invitation for bids and the posted notice must
contain a statement of the bidder’s right to protest pursuant to Section 11-35-4210(1) and the date and location of posting must be announced at bid opening. In addition to posting notice, the governmental body promptly shall send all responsive bidders a copy of the notice of intended award and of the bid tabulation. The mailed notice must indicate the posting date and must contain a statement of the bidder’s right to protest pursuant to Section 11-35-4210(1).

(ii) After ten five business days’ notice is given, the governmental body may enter into a contract with the bidder named in the notice in accordance with the provisions of this code and of the bid solicited. The procurement officer must comply with Section 11-35-1810.

(iii) If, at bid opening, only one bid is received and determined to be responsive and responsible and within the governmental body’s construction budget, award may be made without the ten five-day waiting period.

(d) Negotiations after Unsuccessful Competitive Sealed Bidding. Instead of Section 11-35-1540, the following provisions apply:

(i) If bids received pursuant to an invitation for bids exceed available funds, and it is determined in writing by the governmental body that circumstances do not permit the delay required to resolicit competitive sealed bids, and the base bid, less deductive alternates, does not exceed available funds by an amount greater than ten percent of the construction budget established for that portion of the work, a contract may be negotiated pursuant to this section with the lowest responsible and responsive bidder. The governmental body may change the scope of the work to reduce the cost price to be within the established construction budget but may not reduce the cost price below the established construction budget more than ten percent without a written request by the agency and the written approval of the chief procurement officer based on the best interest of the State.

(ii) If the lowest base bid received pursuant to an invitation for bids exceeds approved available funds and the governmental body is able to identify additional funds for the project, as certified by the appropriate fiscal officers, in the amount of the difference between the lowest base bid and the approved available funds for the project, the governmental body shall submit its a request to use those additional funds to the board and the Joint Bond Review Committee in accordance with Sections 2-47-40 and 2-47-50 Chapter 47, Title 2.”
SECTION 41. Section 11-35-3023 of the 1976 Code is amended to read:

"Section 11-35-3023. (A) In accordance with this section, the applicable section of Article 5, and procedures published by the State Engineer, a governmental body may limit participation in a solicitation for construction to only those businesses, including potential subcontractors, that are prequalified. The prequalification process may be used only with the approval and supervision of the State Engineer’s Office. If businesses are prequalified, the governmental body must issue a request for qualifications. Adequate public notice of the request for qualifications must be given in the manner provided in Section 11-35-1520(3). The request must contain, at a minimum, a description of the general scope of work to be acquired, the deadline for submission of information, and how businesses may apply for consideration. The evaluation criteria must include, but not be limited to, prior performance, recent past references on all aspects of performance, financial stability, and experience on similar construction projects. Using only the criteria stated in the request for qualifications, businesses must be ranked from most qualified to least qualified. The basis for the ranking must be determined in writing. If fewer than two businesses are prequalified, the prequalification process must be canceled. The determination regarding how many offers to solicit is not subject to review pursuant to Article 17 of this code. Section 11-35-1520(4) (Request for Qualifications) and Section 11-35-1530(4) (Request for Qualifications) do not apply to a procurement of construction.

(B) In a design-bid-build procurement, the prequalification process may be used only if the construction involved is unique in nature, over ten million dollars in value, or involves special circumstances, as determined by the State Engineer. In a design-bid-build procurement, the minimum requirements for prequalification must be published in the request for qualifications. Offers must be sought from all businesses that meet the published minimum requirements for prequalification."

SECTION 42. Section 11-35-3024(1) and (2) of the 1976 Code is amended to read:

“(1) Applicability. In addition to the requirements of Section 11-35-1530 (Competitive Sealed Proposals) or Section 11-35-1535..."
(Competitive Negotiations), the procedures in this section apply as provided in items (2), (3), and (4) below.

(2) Content of Request for Proposals. A Request for Proposals for design-build, design-build-operate-maintain, or design-build-finance-operate-maintain:

(a) must include design requirements;

(b) must solicit proposal development documents; and

(c) may, if the governmental body determines that the cost of preparing proposals is high in view of the size, estimated price, and complexity of the procurement:

(i) prequalify offerors in accordance with Section 11-35-3023 by issuing a request for qualifications in advance of the request for proposals;

(ii) select, pursuant to procedures designated in the Manual for Planning and Execution of State Permanent Improvements, a short list of responsible offerors who submit proposals determined to be reasonably susceptible of being selected for award before discussions and evaluations pursuant to Section 11-35-1530, if the number of proposals to be short-listed is stated in the Request for Proposals and prompt public notice is given to all offerors as to which proposals have been short-listed; or

(iii) pay stipends to unsuccessful offerors, if the amount of the stipends and the terms under which stipends are paid are stated in the Request for Proposals.

Subsection (2)(c)(ii) is inapplicable if competitive negotiations are conducted pursuant to Section 11-35-1535.”

SECTION 43. Section 11-35-3030(1) and (2)(a) of the 1976 Code is amended to read:

“(1) Bid Security.

(a) Requirement for Bid Security. Bid security is required for all competitive sealed bidding for construction contracts in a design-bid-build procurement in excess of fifty one hundred thousand dollars and other contracts as may be prescribed by the State Engineer’s Office. Bid security is a bond provided by a surety company meeting the criteria established by the regulations of the board or otherwise supplied in a form that may be established by regulation of the board.

(b) Amount of Bid Security. Bid security must be in an amount equal to at least five percent of the amount of the bid at a minimum.
(c) Rejection of Bids for Noncompliance with Bid Security Requirements. When the invitation for bids requires security, noncompliance requires that the bid be rejected except that a bidder who fails to provide bid security in the proper amount or a bid bond with the proper rating must be given one working day from bid opening to cure the deficiencies. If the bidder is unable to cure these deficiencies within one working day of bid opening, his bid must be rejected.

(d) Withdrawal of Bids. After the bids are opened, they must be irrevocable for the period specified in the invitation for bids. If a bidder is permitted to withdraw its bid before bid opening pursuant to Section 11-35-1520(7) in accordance with regulations promulgated by the board, action must not be had against the bidder or the bid security.

(2) Contract Performance Payment Bonds.

(a) When Required-Amounts. Contracts for construction must require the following bonds or security: must be delivered to the governmental body and become binding on the parties upon the execution of the contract for construction:

(i) a performance bond satisfactory to the State, executed by a surety company meeting the criteria established by the board in regulations, or otherwise secured in a manner satisfactory to the State, in an amount equal to one hundred percent of the portion of the contract price that does not include the cost of operation, maintenance, and finance;

(ii) a payment bond satisfactory to the State, executed by a surety company meeting the criteria established by the board in regulations, or otherwise secured in a manner satisfactory to the State, for the protection of all persons supplying labor and material to the contractor or its subcontractors for the performance of the construction work provided for in the contract. The bond must be in an amount equal to one hundred percent of the portion of the contract price that does not include the cost of operation, maintenance, and finance;

(iii) in the case of a construction contract valued at fifty thousand dollars or less, the governmental body may waive the requirements of subitems (i) and (ii) above, if the governmental body has protected the State;

(iv) in the case of a construction manager at-risk contract, the solicitation may provide that bonds or security are not required during the project’s preconstruction or design phase, if construction does not commence until the requirements of subitems (i) and (ii) above have been satisfied. Additionally, the solicitation may
provide that bonds or security as described in subitems (i) and (ii)
above may be furnished for one or more designated portions of the
project, in an amount equal to one hundred percent of the value of
the construction of each designated portion, and also may prescribe
the time of delivery of the bonds or security. In no event may
construction of any portion of the work commence until the
appropriate bonds or security have been delivered to the
governmental body.
(v) in the case of design-build, design-build-operate-maintain, or
design-build-finance-operate-maintain contract, the solicitation
may provide that bonds or security as described in subitems (i) and
(ii) above may be furnished for one or more designated portions of
the project, in an amount equal to one hundred percent of the value
of the design and construction of each designated portion, and also
may prescribe the time of delivery of the bonds or security. In no
event may design or construction of any portion of the work
commence until the appropriate bonds or security have been
delivered to the governmental body.”

SECTION 44. Section 11-35-3040(1)(a) of the 1976 Code is
amended to read:
“(a) the unilateral right of a governmental body to order in
writing:
(i) all changes in the work within the general scope of the
contract, and

which do not alter the general scope of the contract work;”

SECTION 45. Section 11-35-3070 of the 1976 Code is amended
to read:
“Section 11-35-3070. Consistent with any applicable regulation
of the board, a governmental body may approve and pay for
amendments to architectural/engineering contracts and change
orders to construction contracts, within the governmental body’s
certification authority, which do not alter the original general scope
or intent of the project and which do not exceed the previously
approved project budget.”

SECTION 46. Section 11-35-3220(2)(b) and (3) of the 1976 Code
is amended to read:

[530] 53
“(b) The invitation must include, but not be limited to, the project title, the general scope of work, a description of all professional services required for that project, the submission deadline, and how interested firms may apply for consideration. The agency selection committee shall file a copy of the project description and the invitation with the State Engineer’s Office. Adequate notice of the invitation must be given at a reasonable time before the date set forth in it for receipt of responses. The invitation must be advertised formally in an official state government publication. The manner in which this official state government publication must be published, the content of the publication itself, the frequency of the publication, the method for subscription to the publication, and the manner by which the publication is distributed must be established by regulation of the board.

(3) Response to Invitation. The date for submission of information from interested persons or firms in response to an invitation must not be less than fifteen days after publication of the invitation. Interested architect-engineer, construction management, and land surveying persons or firms shall respond to the invitation with the submission of a current and accurate Federal Standard Form 254 or Federal Standard Form 255, or their successor forms or similar information as the board may prescribe by regulation. The State Engineer may specify in the Manual for Planning and Execution of State Permanent Improvement Projects, Part II, and other information that the particular invitation may require.”

(c) the capability of the architect, engineer, or land surveyor to produce the required service within a reasonable time;
(d) past performance; and

The total value of contracts awarded to a single architectural engineering, construction management, or land surveying firm by a single governmental body pursuant to subsection (1) may not exceed one hundred fifty thousand dollars in a twenty-four-month period. Fees paid during the twenty-four month period immediately preceding negotiation of the contract by a single governmental body for professional services performed by an architectural engineering or land surveying firm pursuant to Section 11-35-3230(1) may not exceed seventy-five thousand dollars. Persons or firms seeking to render professional services pursuant to this section shall furnish the governmental body with whom the firm is negotiating a list of professional services, including fees paid for them, performed for the governmental body during the fiscal year immediately preceding the fiscal year in which the negotiations are occurring and during the fiscal year in which the negotiations are occurring.

(3) Submission of Contracts to State Engineer’s Office. Copies of contracts, including the negotiated scope of services and fees, awarded pursuant to this section must be submitted to the State Engineer’s Office for information.

(4) Splitting of Larger Projects Prohibited. A governmental body may not break a project into small projects for the purpose of circumventing the provisions of Section 11-35-3220 and this section.

SECTION 49. Section 11-35-3310 of the 1976 Code is amended to read:

“Section 11-35-3310. (1) General Applicability. Indefinite delivery quantity contracts may be awarded on an as-needed basis for construction services pursuant to the procedures in Section 11-35-3015(2)(b) and for architectural-engineering and land-surveying services pursuant to Section 11-35-3220.

(a) Construction Services. When construction services contracts are awarded, each contract must be limited to a total expenditure of seven hundred fifty thousand dollars for a two-year period with individual project expenditures not to exceed one hundred fifty thousand dollars; however, for public institutions of higher learning, and for technical college service contracts authorized by the State Board for Technical and Comprehensive Education, these limits shall be one million dollars for total expenditures and two hundred fifty thousand dollars for individual expenditures within the time periods specified.

SECTION 50. Article 10, Chapter 35, Title 11 of the 1976 Code is amended by adding:

“Section 11-35-3320. (A) The term ‘task order contract’ means a contract that does not procure or specify a firm quantity of services, other than a minimum or maximum quantity, and that provides for the issuance of task orders for the performance of tasks during the period of the contract. Subject to the requirements of this section and other applicable law, a governmental body may enter into task order contracts to acquire construction services when the exact time or exact quantities of future tasks are not known at the time of contract award. In accordance with Section 11-35-4810, the State Engineer may award task order contracts on behalf of any governmental body and for use by any state public procurement unit authorized by the State Engineer.

(B) At any given time, a governmental body may enter into task order contracts with four businesses for each geographic area for each licensing classification and subclassification for construction. Licensing classification and subclassification has the meaning provided by Chapter 11, Title 40. Except as otherwise provided in this section, a task order contract for construction must be procured as provided in Section 11-35-1530, not including paragraph (4) (Request for Qualifications) or paragraph (8) (Negotiations). All evaluations must be conducted by a panel composed of at least three members. A governmental body shall invite the State Engineer or his designee to serve as one of the panel members. Except as provided by regulation, award must be made to the four responsible offerors whose proposals are determined in writing to be the most advantageous to the State, taking into consideration the evaluation factors set forth in the request for proposals. The contract file must contain the basis on which the awards will be made and must be sufficient to satisfy external audit. Procedures and requirements for the notification of intent to award the contracts must be the same as those provided in Section 11-35-1520(1) (Award). Section 11-35-3023 does not apply to contracts awarded pursuant to this section.

(C) Limitations on task order contracts.

(1) A task order contract awarded for geographic area may not be used to perform services at a different geographic area.

(2) A task order contract may not exceed five years, including extensions.
(3) Total expenditures pursuant to all task order contracts for construction resulting from a single solicitation may not exceed four million dollars.

(4) The total construction cost of a single project performed using multiple task orders or task orders in combination with other types of contracts may not exceed five hundred thousand dollars. Projects may not be divided artificially to avoid this limitation.

(5) A single project must not be performed using task order contracts for construction in combination with contracts awarded pursuant to Section 11-35-1550. Standards for determining whether work constitutes a single project must be established in the Manual for Planning and Execution of State Permanent Improvements.

(D) Limitations on task orders.

(1) A task order must clearly specify all tasks to be performed or property to be delivered under the order so the full price for the performance of the work can be established when the order is placed. All task orders must be issued on a fixed-price basis.

(2) A quote request for construction must be provided to all task order contractors. A task order for construction may not be issued unless the governmental body receives at least two responsive, bona fide, fixed-price quotes. Any award must be issued to the contractor submitting the lowest responsive quote.

(3) All task orders must be issued within the period of the contract and must be within the scope and maximum value of the contract.

(4) A task order for construction may not be less than ninety thousand dollars and may not exceed three hundred fifty thousand dollars. Work may not be aggregated or divided artificially in order to avoid these limits.

(E) Any solicitation for a task order contract must include the following:

(1) the period of the contract, including the number of options to extend the contract and the period for which the contract may be extended under each option, if any;

(2) the maximum dollar value of the services to be procured under the contract;

(3) the minimum and maximum dollar value of the services to be procured under a single task order;

(4) a description that reasonably describes the licensing classification and the general scope, nature, complexity, and purposes of the services to be procured under the contract in a manner that will enable a prospective offeror to decide whether to submit an offer;
(5) the procedures that the governmental body will use for requesting fixed price quotes and for issuing orders, a restriction on communications between contractors regarding pending quote requests, and a requirement that all contractors must respond to all quote requests;

(6) the geographic area to which the task order contract applies. Ordinarily, a geographically contiguous area should not be subdivided; and

(7) the number of task order contracts to be awarded.

(F) Every award of a task order contract must be approved by the Office of the State Engineer and is subject to procedures or guidelines established in Manual for Planning and Execution of State Permanent Improvements. A governmental body shall submit to the Office of the State Engineer any reports required by the Manual for Planning and Execution of State Permanent Improvements.

(G) Administrative review under Article 17 is not available for the award of an individual task order, except for a protest of the award of a task order on the ground that the order increases the scope, period, or maximum value of the task order contract under which the order is issued.”

The sales must be held at such places and in a manner as in the judgment of the Division of General Services department is most advantageous to the State. Unless otherwise determined, sales must be by either public auction or competitive sealed bid to the highest bidder. Each governmental body shall inventory and report to the division all surplus personal property not in actual public use held by that governmental body for sale. The division department shall deposit the proceeds from the sales, less expense of the sales, in the state general fund or as otherwise directed by regulation. This policy and procedure applies to all governmental bodies unless exempt by law.”

SECTION 53. Section 11-35-3830(2) and (3) of the 1976 Code is amended to read:

(a) the subject personal property shall be traded in and the value applied to the purchase of new like items; or

(b) the property shall be classified as surplus and sold in accordance with the provisions of Section 11-35-3820. The board’s determination shall be in writing and be subject to the provisions of this chapter.

SECTION 54. Section 11-35-3840 of the 1976 Code is amended to read:

“The Division of Procurement Services may license for public sale publications, including South Carolina Business Opportunities, materials pertaining to training programs, and information technology products that are developed during the

All proceeds from the sale of the publications and materials must be placed in a revenue account and expended for the cost of providing the services deposited in the state treasury in a special account and expended only for the costs of providing the goods and services, and such funds may be retained and expended for the same purposes.”

SECTION 55. Section 11-35-3850 of the 1976 Code is amended to read:

“Section 11-35-3850. Governmental bodies approved by the Department of Administration may sell any supplies owned by it after the supplies have become entirely unserviceable and can properly be classified as ‘junk’, in accordance with procedures established by the designated board office department. All sales of unserviceable supplies by the governmental body must be made in public to the highest bidder, after advertising for fifteen days, and the funds from the sales must be credited to the account of the governmental body owning and disposing of the unserviceable supplies.”

SECTION 56. Section 11-35-4210(1), (2), (3), and (7) of the 1976 Code is amended to read:

(c) The rights and remedies granted in this article to bidders, offerors, contractors, or subcontractors, either actual or prospective, are to the exclusion of all other rights and remedies of the bidders, offerors, contractors, or subcontractors against the State. For protests of intended award or award of a contract of the purchasing agency’s request for sole source or emergency procurements, the bond or irrevocable letter of credit shall be in an amount equal to one percent of the requesting agency’s estimate of the contract amount for the sole source or emergency procurement requested. In lieu of a bond or irrevocable letter of credit, the appropriate chief procurement officer may accept a cashier’s check or money order in the amount of the bond or irrevocable letter of credit. If, after completion of the administrative hearing process and any appellate court proceedings, the agency prevails, it may request that the Procurement Review Panel allow it to recover all reasonable reimbursement costs and charges associated with the protest which shall be included in the final order or judgment, excluding attorney’s fees. Upon payment of such costs and charges by the bidder or offeror protesting the intended award or award of a contract, the bond, irrevocable letter of credit, cashier’s check, or money order shall be returned to the bidder or offeror. The appropriate chief procurement officer also may have authority to suspend a person or firm from consideration for award of contracts or subcontracts during an investigation where there is probable cause for debarment. The period of debarment or suspension is as prescribed by the appropriate chief procurement officer.

(c) conviction under state or federal antitrust laws arising out of the submission of bids or proposals;

(d) violation of contract provisions, as set forth below, of a character regarded by the appropriate chief procurement officer to be so serious as to justify debarment action:

(i) deliberate failure without good cause to perform in accordance with the specifications or within the time limit provided in the contract; or

(ii) a recent record of failure to perform or of unsatisfactory performance in accordance with the terms of one or more contracts; except, that failure to perform or unsatisfactory performance caused by acts beyond the control of the contractor must not be considered a basis for debarment;

(e) violation of an order of a chief procurement officer or the Procurement Review Panel; and

(f) violation of the Ethics, Government Accountability, and Campaign Reform Act of 1991, as amended, as determined by the State Ethics Commission, as an incident to obtaining or attempting to obtain a public contract or subcontract, or in the performance of the contract, or subcontract; and

The decision must state the action taken, the specific reasons for it, and the period of debarment or suspension, if any.

(4) Notice of Decision. A copy of the decision pursuant to subsection (3) and a statement of appeal rights pursuant to Section
11-35-4220(5) must be mailed or otherwise furnished immediately to the debarred or suspended person and any other party intervening.
