The Gills Creek Watershed Association (GCWA) is Requesting a Statement of Qualifications from engineering and design firms to provide professional project management, design and construction management services for a South Carolina Department of Health and Environmental Control (SCDHEC) sponsored 319 Water Quality Grant for riparian buffer restoration and water quality best management practice (BMPs) implementation to reduce nonpoint source (NPS) pollution in Gills Creek in Columbia, SC. The GCWA is a not-for-profit corporation charged with improving management and water quality in the Gills Creek watershed.

The overall goal of the 319 Water Quality Grant is to reduce NPS pollution within the reach of Gills Creek from Ft. Jackson Blvd to Rosewood Dr. in Columbia, SC. Stormwater BMPs are proposed to treat stormwater entering Gills Creek in this reach. One or more qualified firms, or a project team, will be selected to provide project management, design and construction management services for this project through October 2020 or later should the project be extended.

VENDORS, DON'T NEGLECT TO CHECK THE STATE'S FIXED PRICE BIDS

If authorized by the original solicitation, the State may use "competitive fixed price bidding" to create procurements with an open response date. These fixed price bids are advertised in SCBO once, but the solicitation may provide for bids to be accepted continuously or periodically during the contract term. The link below takes you to a listing of all open solicitations conducted by the central purchasing office using the competitive fixed pricing bidding rules: <https://procurement.sc.gov/vendor/contract-ops/fixes-price-bids-ss>.
