SCDC DIVISION OF INDUSTRIES -- "MAKING A DIFFERENCE FOR SOUTH CAROLINA"

Our Mission:

Provide occupational and personal development training for incarcerated offenders. Reduce recidivism rates. Provide quality products and services. Support a strong South Carolina economy while serving its citizens. What does the Division of Industries Do?

The Division of Industries (DI) serves the SC Department of Corrections and the state by employing and training incarcerated offenders. This training oriented work allows the incarcerated offenders to return to society with skills that will enable them to become useful and productive citizens. In pursuit of this objective, the cost of incarceration is offset through incarcerated offenders' wages by the sale of quality products and services we provide to qualified businesses and organizations at substantial savings.

Division of Industries (DI) provides a wide array of products and services ranging from printing services, office furniture, modular units, signs, embroidery, re-upholstery, framing, outdoor and detention furniture, to custom built products and is available to governmental entities, school districts and not-for-profit organizations through three program areas called Traditional, Service and PIE. DI now serves over 500 client organizations.

State Appropriations Act includes a proviso that directs:

All agencies funded in this act, when procuring goods and services, shall first consider contracting for services or purchasing goods and services through the Department of Corrections' Division of Industries Program.

What are the benefits?

Vocational Training: Fabrication, welding, carpentry, upholstery, framing, printing, computer skills, warehousing, inventory management, paint and powder coating.

Soft Skills: Teamwork, punctuality, responsibility, meeting deadlines, communication, flexibility, problem solving.

Benefits go beyond training and skills.

In FY 2017, incarcerated offenders participating in Division of Industries work programs contributed \$1,449,027 to victims and victims programs.

In FY 2017, incarcerated offenders participating in Division of Industries work programs offset costs associated with their room and board in the amount of \$1,408,140

In FY 2017, incarcerated offenders participating in Division of Industries work programs were able to send \$693,521 in child support payments to pay for their dependent children.

Incarcerated offenders who participate in Division of Industries work programs return to prison at a lower rate than those that do not. The recidivism rate for industries incarcerated offenders was 13.5% in 2013 compared to an overall recidivism rate of 23.1% that same year.
