REQUEST FOR QUALIFICATIONS STATEMENT (RFQ) -- PUR877

PROFESSIONAL ENGINEERING SERVICES FOR

MUSEUM/SC 161 INTERSECTION WATERMAIN REPLACEMENT PROJECT

CITY OF ROCK HILL, SOUTH CAROLINA

The City of Rock Hill (the City), South Carolina provides water service to more than 32,000 residential and commercial customers in Rock Hill and the surrounding area. The water is treated at the City's Water Filter Plant (WFP) and then conveyed throughout the City's network of water transmission mains. As the distribution system has expanded over the years, certain areas of the system are comprised of pipes of varying sizes. The intersection of Museum Road and SC 161 is one such area. Due to the various-sized pipes in this vicinity, the Old Pointe elevated water storage tank does not operate efficiently as flows from other larger mains are bottlenecked at this intersection. This project involves replacing the pipes of varying sizes with new 16" ductile iron pipe.

The overall objectives of the project include the following:

- Identify alignment options for the replacement line.
- Design and permit the replacement line.
- Prepare easement exhibits if needed.
- Prepare bid documents and specifications.
- Provide assistance with the bid advertisement, release, and opening.
- Construction administration of the project.

PURPOSE

The purpose of this Request for Qualifications (RFQ) is to obtain information about engineering firms for various services related to the replacement of existing water mains (comprised of various smaller sizes) at the intersection of Museum Road and SC 161. The new line will consist of approximately 1200 LF of 16" ductile iron pipe

and is proposed to adequately meet the demands of the City's customers. The line will connect to the City's existing 16" mains (in three locations) along Museum Road and SC 161. The design work is anticipated to begin as soon as possible, but no later than September 1, 2017, and the construction bid package should be completed no later than June 30, 2018. The submitted qualifications statements will be utilized by the City of Rock Hill to evaluate each interested firm by utilizing the criteria outlined in this RFQ.

Funding for the work is through the City's Water PayGo funds. These funds are available on an annual basis and do not transfer from one fiscal year to the next. Currently, the funding schedule provides for design and easement acquisition in Year 1 with construction in Year 2.

SUBMISSION OF QUALIFICATIONS STATEMENT AND CONTACT PERSON

Qualifications Statement must be submitted no later than 2:00pm on August 2, 2017 to:
