MetaStor - SAAS Pricing

Below are the descriptions of MetaStor Multi and Single tenant setups as well as the items included with installation:

Multi- Tenant

Shared server with MetaStor software already installed

Upgrades included

MetaStor software installation on 2 Test and 2 Prod servers (add 2 more for Stage)

EDB, WIM, AppWorks, Tomcat and OTDS installation on two servers per environment when workflow is included

Configuring software to make ready for build

Shared SQL server and image storage per environment

Installation and setup of new dedicated servers

Inclusions with Installation

MetaStor and Appwork:

Collection setup with xPlore purchase

SQL MetaStor database creation (Test and Prod; plus Stage if sold)

Client Logo files to added to MetaStor

Path creation

MetaStor Data Sources Creation MetaStor and admin web configurations updated with new Data Source for

Password Policy

Login to single Data Source Admin and apply Password Policies

MSTEST MetaStor Application Creation (used to test functionality)

Bulk upload available on request (Users and security setup is limited to 15-20 users)

Importing MetaStor Application XML file, provided by the Partner/Client

Manually building up to 10 MetaStor Applications IF the Application architecture is provided

User functionality instruction (limited to 2 remote sessions)

Admin functionality instruction (limited to 1 remote session)

AppWorks Only

EDB and WIM configuration for AppWorks to trigger workflows

AppWorks and OTDS configuration for each MetaStor environment

Connectivity testing and access to AppWorks and MetaStor via OTDS2

MetaStor Only exclusions:

Does not include architecting or building workflows, forms or or any customizations.

Does not include setting up users and roles.

Note: Percent of discount =5% off MSRP.
