Cancellation of Award Prior to Performance

Materials Management Office
IFB No. 5400004003
Diesel Fuel—Transport
Contract No. 4400005049
Item No. 3, Diesel—Ultra Low
Transport Zone 3

BEFORE THE CHIEF PROCUREMENT OFFICER

WRITTEN DETERMINATION

POSTING DATE: March 30, 2012

MAILING DATE: March 30, 2012

This matter is before the Chief Procurement Officer (CPO) as a request from John Stevens, State Procurement Officer, to cancel an award prior to performance. (Copy attached) The basis of Mr. Stevens' request is that an error tabulating bids resulted in a notice of intent to award being posted to an offeror who was not the lowest responsive and responsible bidder.

Background

On February 20, 2012, Materials Management Office (MMO) issued IFB No. 5400004003, seeking bids for state term contracts for various line items of fuel. (Ex. 1) Line Item No. 3 is for Diesel – Ultra Low – Transport Zone 3. MMO's instructions required bidders to bid a price in the form of a mark-up for each gallon of fuel by category. MMO issued Amendment #1 on February 28, 2012. (Ex. 2) On March 15, 2012, MMO opened the following bids received for Item No. 3.

Offeror	*Price Offer*
James River Solutions	$0.0132
Petroleum Traders	$0.0233
Mansfield Oil Company	$0.0265
RKA Petroleum Companies	$0.0459
PS Energy Group	$0.1000

(Ex. 3) Allen Register, MMO Senior Procurement Manager, evaluated the bids. On March 20, 2012, Mr. Register posted a notice of intent to award all line items. (Ex. 4) The notice identifies Petroleum Traders as the low bidder for Line Item No. 3. In fact, James River Solutions was low bidder on Line Item No. 3. Mr. Register later discovered his mistake and reported it to Mr. Stevens. On March 26, Mr. Stevens asked the CPO to cancel the award for Item No. 3 pursuant to Code Section 11-35-1520(7) and Regulation 19-445.2085(C)(7).

Conclusions of Law

Code Section 11-35-1520(7) the Code permits the "cancellation and re-award of awards or contracts, after award but before performance ... in accordance with the regulations promulgated by the board." Regulation 19-445.2085(C) provides, in relevant part:

> After an award or notification of intent to award, whichever is earlier, has been issued but before performance has begun, the award or contract may be canceled and either re-awarded or a new solicitation issued or the existing solicitation canceled, if the Chief Procurement Officer determines in writing that:
>
> ***
>
> (7) Administrative error of the purchasing agency discovered prior to performance, or
>
> (8) For other reasons, cancellation is clearly in the best interest of the State.

The South Carolina Procurement Review Panel (Panel) has expressly recognized the CPO's right to exercise his authority under Regulation 19-445.2085(C). Protest of Specialty Underwriters and Appeal of Keenan & Suggs, Case No. 2004-2 (inadequate and ambiguous specifications); Protest of B&D Marine and Industrial Boilers, Inc., Appeal by C&C Boiler Sales & Services, Inc., Case No. 2000-12 (unduly restrictive specifications and did not assure a cost effective procurement of the state's needs); Protest of Analytical Automation Specialists, Inc., Case No. 1999-1 (specifications were revised); and Protest of Blue Cross Blue Shield of South

Carolina and Public Consulting Group, Inc., Case No. 1996-3 (inadequate and ambiguous specifications and an administrative error on the duration of the contract).

In all of the above cases, the Panel found that cancellation and resolicitation were appropriate. The issue in this case is much clearer than in the cited Panel decisions. These circumstances are four square within the express language of the Regulation. Mis-identifying Petroleum Traders Corporation as the low bidder is a plain administrative error. MMO discovered the error before performance. Petroleum Traders' bid is higher than the one James River Solutions submitted, so cancellation is clearly in the best interest of the State. No resolicitation is necessary, since the lowest responsive and responsible bidder is easily identifiable from the bid tabulation.

Determination

The CPO finds that the intent to award Item No. 3 to Petroleum Traders Corporation is an administrative error by the MMO which was discovered prior to performance. Regulation 19-445.2085 permits the canceling the award and re-awarding the contract, based on this written determination. Therefore, MMO is directed to cancel the intent to award for Item No. 3, Diesel – Ultra Low – Transport Zone 3 only; and re-award that item in accordance with the Code and Regulations.

RE: Solicitation 5400004003, Item #3 – Diesel – Ultra Low – Transport Zone 3 – Contract #4400005049

In accordance with SC Regulation 19-445.2085, C, Cancellation of Awards Prior to Performance, (7), the award of the subject bid was in error.

C. Cancellation of Award Prior to Performance.

After an award or notification of intent to award, whichever is earlier, has been issued but before performance has begun, the award or contract may be canceled and either re-awarded or a new solicitation issued or the existing solicitation canceled, if the Chief Procurement Officer determines in writing that:

(7) Administrative error of the procuring agency discovered prior to performance

The procurement officer responsible for this procurement simply did not award line item #3 to the lowest responsive and responsible offeror (reference attached workbook containing spreadsheet labeled "Bid Tab – Buyer's Working Copy). The "Mark-Up" awarded (Petroleum Traders Offer) was **$0.0233**. The "Mark-Up" that should have been awarded was **$0.0132**. Award was based on the lowest price per zone or statewide, whichever yields the lowest overall cost to the state.

The state also solicited pricing for a statewide "Mark-UP" and compared the lowest of those mark-ups to the pricing the sum total of the lowest mark-up for each zone. In all cases the sum total zone pricing was lower than the statewide pricing (reference the attached workbood - worksheet labeled "Zone vs Statewide Comparison"). Cancelling the erroneous award and awarding to a lower zone mark-up will only increase the price advantage to award by zone.

The above information was discussed with the procurement officer and it was agreed that the awarded offer was not the lowest responsive and responsible offer. The procurement officer has determined the low responsive offeror, James River Solutions, to be a responsible offeror. This being the case, we request approval to cancel the contract award prior to performance and re-award to the next lowest responsive and responsible offer.

Thank you for your review of this request.

Mark-Ups: The "Mark-Ups" entered are taken directly from either the electronic or paper (traditional) offers. In all cases the procurement officer could determine the intent of the offerors from the face of the documents and a basic understanding of the markets.
